EPA is soliciting public comments on their proposed rule regarding renewable fuel levels for 2018. [Now is your chance to let them know that boaters need access to ethanol free and E10 gasoline-and not more E15.](#)

Under EPA's proposal for next year, the availability of ethanol free and E10 gasoline continues to be in jeopardy. Meanwhile, the availability of E15 will continue to grow, jeopardizing boats and boat engines across the country.

Boaters need to be able to fill their boat with the fuel of their choice.

**EPA is accepting comments through August 31<sup>st</sup>.** [Act now and tell EPA that you want continued access to ethanol free and E10 gasoline.](#)
